Subject: 12.11.14 CES Open House

Good afternoon Gary,

Please see the attached edits. I added a title slide, agenda, and contacts page...but other than formatting...that is all I changed. The photos and text remain the same as your original slide show. My only concern is messaging. The slide show lacks three key messages that we hope residents take away with them from the meeting. Based on our door-to-door meet and greet in November, I recommend the following:

1. The EPA took the lead on the cleanup of the CES Environmental Services Site Aug. 14, 2014, when funding was approved for a Time-Critical Removal.
2. The EPA's actions on the objective include the cleanup, removal, and disposal of hazardous waste at the Site. (quantified on slide 12, Actions Completed to Date (12/11/14)
3. The EPA's goal is to complete cleanup by the Spring of 2015.

Please take the time to consider what you consider to be the key messages and add them to the slide show.

Also, I deleted the slides with full photos. My recommendation is an additional slide show that is solely imagery, which will loop continuously before and after the main presentation. I will send it shortly.

Respectfully,

Joan Drammeh
